CELEBRATE SUMMER SAFELY

The weather is beautiful and we're all getting outdoors a little more. Whether you're working outside by mowing the lawn or staining the deck or simply out enjoying the sunshine, make sure to keep your home's security in mind.

If you're opening windows to let that warm breeze inside, make sure to close and lock them whenever you leave home. Otherwise, they could turn into a nice entry point for a burglar.

While you're relaxing on the deck or grilling out back, take a moment to note whether your front door is locked and the garage is closed. If not, what's to stop a thief from coming in while you're attending other things?

When it comes to the grill, make sure it's kept away from the house and give it a quick check before firing it up. Check for holes, leaks, cracks and grease buildup that could cause a grill fire.

We all love a great deck or patio space, but be mindful of what you keep out there when you're not at home or asleep. It's easy for burglars to access the deck (and your belongings) without disturbing anyone inside.

Do you have a fenced yard? While the fence provides a layer of protection, you might consider putting a contact sensor on the gate to let you know when it is opened. Finally, to keep an eye on things at all times, consider installing security cameras outside your property. That way you can keep an eye on the front of the house while you're enjoying the backyard.

With WH Security, your system is monitored 24/7 by a local team of professionals. And by using our automation services you can receive alerts and check your cameras from your smart device.

Don't have automation services? Want to add devices to your existing security system? Many of our products can be added to your system without increasing your monthly monitoring fee. **Call WH Security at 763.477.3664 to learn more.**

SMARTER HOME SECURITY VIDEO SYSTEM ANALYTICS

It's summer and we're all getting out and about more often. To keep an eye on your property at all times, consider installing security cameras. By using our automation services, you can receive alerts and check your cameras from your smart device anywhere there is an internet connection.

Our latest video systems include analytics that help limit the number of events a camera picks up for those living on busy streets or with active wildlife in the yard. With a tripwire system, the customer can designate a specific digital line and the video system will only trigger to record when something crosses that line fully. For example, you might set your trip line to be a specific point across your driveway. This way, the video system won't record when cars drive down the road, only when they enter your driveway.

WH Security offers all the latest video technology to protect you, your home and your business. Learn more on our website or give us a call today at 763.477.3664 to find out more about our security cameras, which are monitored 24/7 by a local team of professionals.

MAINTAIN INDEPENDENCE WITH OUR MEDICAL ALERT OPTIONS

If you're concerned about a loved one with medical issues, consider one of three medical alert options available through WH Security. Our medical alerts are designed to protect your loved ones with the push of a button and offer custom solutions for your specific needs with around-the-clock assistance.

We offer communication options for individuals who are home-bound (with or without a landline), as well as those on the go. An in-home personal medical alert will help users maintain independence, while providing peace of mind for your loved ones. Our on-the-go solution is powered by GPS technology with Wi-fi location services, allowing you to go almost anywhere and be confident that if you need it, help is just a push of a button away.

Fall detection pendants are available with all medical alerts, which automatically sense the action of a fall. When a fall is detected or the button is pressed, our local 24/7 monitoring center will be alerted and respond immediately.

Free in-home installation, service calls and around-the-clock monitoring assistance in any emergency is included with our medical alerts. Call us today at 763.477.3664 or visit our website at wh-security.com/medical to find a solution that works for your family.

GIVE \$25 GET \$25!

Refer your friends and you'll both receive a \$25 bill credit* when they sign up to be protected by WH Security.

*Certain restrictions may apply. Credits will be applied to customer accounts once referral signs new three-year security agreement. Medical alerts are not included.
