MAPLE GROVE DAYS

Our techs had fun seeing you!

BACK TO SCHOOL WITH DOORBELL CAMERAS

The new school year is just around the corner and many parents are starting their back-to-school shopping. Doorbell cameras may not be on your list, but they can be a valuable addition if your kids are home alone.

Doorbell cameras alert you when your child leaves or returns home from school on your smartphone or tablet. You and your kids are also able to see who is at the door without opening it, helping you and your child feel more comfortable while they are home alone. You can also communicate with visitors so your child does not need to.

Our doorbell cameras detect motion and recognize when people approach. You will know when your packages are delivered so you can be sure they make into your home safely. They also have night vision which will allow you to see if someone is at your door any hour of the day.

If you are interested in learning more about the cameras we offer, please contact us at 763.477.3664 or visit our website at wh-security.com.

SCHEDULE YOUR SERVICE BEFORE YOUR WINTER VACATION

Planning on a winter getaway? Call today to get on WH Security's service schedule to keep your home protected while you are away. We offer three different service plans, which cover some or all of the costs accrued during a service call, as well as one free system check per year, which helps to ensure that your system is always in excellent working order. They keep your system working smoothly and your budget intact. The service plans range in price from \$7.95 to \$15.95 per month making them good for your system and your budget.

It is also a good time to add devices to your security system. Sensors for environmental issues such as fire, freeze and flood are monitored 24/7 and will alert you or emergency services so action can be taken even if you are away. In the event an environmental sensor detects a problem the monitoring center will contact you immediately. Automated lights can be turned on or off on unique lighting schedules to give the appearance that you are home. Smart thermostats can be set to lower energy costs while you are gone and adjusted prior to your return making your home comfortable when you walk in the door. Get your home vacation ready by calling 763.477.3664 today!

GIVE \$25, GET \$25!

Refer your friends and you'll both receive a \$25 bill credit* when they sign up to be protected by WH Security.

OUR POLLINATOR PLANTING IS IN FULL BLOOM

In 2019, we began the installation of a pollinator planting behind our headquarters in Rockford, Minnesota. MN Native Landscapes prepped 1.25 acres of land in front of two solar communities then, in 2020, planted native grasses and wildflowers. The pollinator seed mix included Canada thistle, black eyed Susan, cone flower, and goldenrod. The planting is now in its third growing season and the results are both rewarding and beautiful.

This pollinator planting showcases our commitment to environmental stewardship and to turn unused land into a useful resource. It provides a home for various pollinators such as bees, butterflies and birds which help support the food supply for animals and humans alike.
